1st Runner Up	Tsuen Wan Public Ho Chuen Yiu Memorial College 荃灣公立何傳耀紀念中學	Super HCY	Our work focuses on "daily financial management" because we are "slaves of online shopping". The convenience of cashless transactions makes people forget the value of money, making it easier to overspend. There are so many online products that tempt us to make impulsive purchases. So, I use my work to tell everyone the importance of thoughtful decision-making when shopping online. It is essential to distinguish between needs and wants so as to avoid wasting money. Additionally, young people should pay attention to anti-fraud. They should remain vigilant and verify unfamiliar information to prevent fraud.

3rd Runner Up	(18) St. Paul's Convent School 聖保祿學校	招財寶寶	I acquired a lot from taking part in the competition to make financial literacy-themed WhatsApp stickers. I'm still learning about personal finance, so making the stickers made me think carefully about important ideas and concepts in the field.  To make sure the information I provided in the stickers was correct and beneficial, I had to thoroughly investigate subjects like debt management, investing, saving, and budgeting. My understanding of finance has improved as a result of my research, which also provided me with ideas for useful methods to present these difficult subjects in an understandable, visual manner.  My capacity of to communicate visually and creatively was also tested when designing the stickers. I played around with various layouts, colours, and styles to produce visually striking but educational images. The judges' and my peers' feedback improved my work and gave me a better understanding of how best to use design to communicate financial information.  All things considered, this competition was a fun approach for me to get new technical and creative talents as well as learn more about personal finance. I appreciate the chance, and I feel more prepared to make wise financial decisions in the future.
