Programme Information 课程简介

Launching in the 2027/28 academic year, this pioneering master's programme, offered by the Department of Accountancy, is meticulously designed to equip students with essential knowledge in global corporate governance, corporate compliance, and sustainable business operations. As Environmental, Social, and Governance (ESG) principles increasingly drive modern corporate strategies, the curriculum prepares future leaders to navigate complex regulatory landscapes, manage enterprise risks, and champion sustainable practices within corporations, family businesses, and NGOs.

The programme is currently applying for the Collaborative Course Agreement (CCA) with The Hong Kong Chartered Governance Institute (HKCGI). Subject to final approval and successful accreditation, **graduates of the programme are expected to be eligible for full exemption from the Chartered Governance Qualifying Programme (CGQP)**. This programme is designed for applicants who wish to obtain the HKCGI professional qualification with dual designations of Chartered Secretary (CS) and Chartered Governance Professional (CGP).
